

Back in June of 1985, while rocking out to Pink Floyd and Van Halen and sporting a blue leisure suit, current president Ken Stoppel and several others with strong experience in temperature control, engineering, service and marketing, formed Building Controls and Services, Inc. (BCS) to satisfy those facility owners “Hungry Like a Wolf” for an outstanding building controls provider. Fast forward your VCR more than 25 years and we continue to be that provider. Founded, based, and owned in Wichita since those humble beginnings, today we represent SIEMENS Building Technologies in Kansas as an Independent Field Office (IFO).

Hungry for a pizza? Call Domino's. Need a new truck? Turn to Chevy. If you need products and/or services in building automation controls, temperature controls, energy upgrades, facility management systems, HVAC mechanical equipment, fire and life safety systems, clean agent fire protection, and building security systems, then BCS is your choice. A Wichita mainstay since the phrase “Read my lips...no new taxes” became popular (that's 25 years for you non-history buffs), we've dealt with it all, from office buildings to enterprise-level production, health, and educational facilities.

Benefits to YOU

Facility costs bleeding you dry? Okay, maybe not literally, but it sure feels that way? Then let BCS help you view your facilities as strategic resources instead of expenses. BCS can help stop the bleeding by evaluating your facility to understand where we apply the tourniquet, creating a facilities management strategy that will get your facility back to full health.

And quality? We know you like quality. Who doesn't? It's time you were treated like a king or queen and get the highest

quality facilities management system without the cost of royalty. BCS will meet and exceed your expectations in this area, establishing a long-term partnership in the process. We offer world-class products with local sales and service support to put you on a throne. Our team's unparalleled qualifications, relationships, processes, and industry and management expertise enabling us to be your trusted partner, not court jester.

Whether your facility needs some doctoring or you're looking for kingly quality, choose BCS and you're choosing an integral part of your team.
