The local chapter of the American Society of Heating, Refrigerating & Air Conditioning Engineers has provided about \$140,000 in time, services and equipment to a couple of community projects.

ASHRAE is helping with cooling system improvements for the Church of the Resurrection in Bel Aire and design and construction services for mechanical and plumbing systems at the former Fresh Air Baby Camp in Riverside Park. The Friends of the Fresh Air Baby Camp is remodeling the building for city use as a community center, according to information provided by [Sean Miller](#), chapter president and an engineer with Knipp Equipment Inc.

Contributors to the church project include the following companies and their representatives: Integrated Consulting Engineers, Knipp Equipment, **Spangenberg Phillips Tice Architecture**, 3R Mechanical and Shelley Electric, Heaven Engineering, O'Connor Co., church parishioner [Audra Relph](#) and others in the church. The ASHRAE chapter also is donating \$1,000 to the church for purchase of materials.

Contributors to the Fresh Air project include the following companies and their representatives: Integrated Consulting Engineers, Mechanical Concepts, Knipp Equipment Inc., **Occidental Management Inc.**, **Building Controls & Services**, [J.M. O'Connor](#) and Hajoca. The ASHRAE chapter will donate \$1,000 to help where needed for materials to install the systems.

The chapter is still looking contractor help for Fresh Air project, Miller told me today. For information, contact Miller at 316-249-2779.

John Stearns covers real estate, development and banking.
